

# Dyan L. Janito

Experienced web developer and technology enthusiast with a substantial background in design, digital editing, and social media marketing looking to contribute to the expansion of the universe. Combines a dynamic fusion of creativity, technical wizardry, and unwavering passion for all things web-related to propel projects toward success, fueled by boundless problem-solving prowess.

## WORK EXPERIENCE

---

2017-05 -  
Current

### Web Developer and Tech Consultant

*Independent Freelancer, Remote, United States*

- Design UI/UX and provide web platform customization to develop brand identity and integrate all channels of marketing to cultivate leads and sales for various small businesses.
- Perform front-end website development using WordPress and various editing software and adhere to SEO best practices.
- Optimize front-end performance and ensure smooth and efficient rendering of app screens on various mobile devices and platforms.

2016-02 -  
2017-02

### Applications Developer II

*SecurityFirst Corp., Rancho Santa Margarita, CA*

- Translated UI/UX designs and wireframes into high-quality, responsive, and pixel-perfect user interfaces for high-end IBM security appliances and key managers.
- Improved code for existing product portals for proprietary security software.
- Developed and maintained efficient, reusable, and modular front-end code using HTML, CSS, and JavaScript frameworks.

2014-10 -  
2016-02

### Technical Consultant

*Robert Half Technology, Irvine, CA*

- Spearheaded adoption of new principles such as responsive design, fluid grids, and adaptive design for multiple projects.
- Stayed up-to-date with industry trends, best practices, and emerging technologies in front-end development, bringing innovative ideas and solutions to projects.

2011-05 -  
2014-05

### Front-End Web Developer

*Sleepy Giant Entertainment, Newport Beach, CA*

- Collaborated with cross-functional teams dedicated to the Disney Infinity game website and Marvel XP Facebook app, leveraging Ruby on Rails & Angular frameworks.
- Worked closely with UI/UX designers to ensure that front-end components are seamlessly integrated with the app's visual design and user experience.
- Implemented and consumed APIs and back-end services to enable seamless data exchange between the front-end and back-end systems.
- Participated in code reviews, provide constructive feedback, and contribute to the continuous improvement of development standards and practices.

2008-06 -  
2011-05

### Front-End Web Developer

*Lucid Fusion Inc, Irvine, CA*

- Interpreted marketing visions into workable code in collaboration with back-end developers for e-commerce websites using the Magento platform.
- Worked closely with product managers to understand business goals and user requirements, and translate them into effective front-end solutions.
- Conducted thorough testing and debugging of front-end code, identifying and resolving any issues or inconsistencies.
